

SBC CLUBHOUSE CLOSED

Following Boris Johnson's speech yesterday evening I feel we have no alternative other than to Close the Club House again until further notice.

I don't believe it is fair to expect our members to use their free time to provide a service that distracts from the inclusivity of our great club.

Toilet facilities may still be used but the Clubhouse is to be considered Closed until further notice.

I am sorry if this decision is not agreeable to everyone but the safety of our members and their families is my main concern and I am sure that of the committee.

I am confident that when we can meet properly again your hard working committee will be able to deal with your concerns and start to steer the club back on course to better and safer times.

Please keep safe, stay aware and especially remain alert and keep the club premises safe and secure, keep the gates locked at all times and enjoy the water while we can.

Best wishes

Gary
